ISE / SMG Proposal

High School & Technical Education Program in Canada

For Government of Brasília

---

1. Program Overview

International Student Exchange (ISE), in partnership with Student Management Group (SMG), is pleased to present this proposal for Brazilian students to participate in a **comprehensive academic and technical education program in Canada**.

- **Total Students:** 150
  - Including **30 students placed in Quebec (Montreal region)**
- **Destination:** Canada
- **Program Duration:** 14 weeks (option to adjust to 13 weeks)
- **Program Type:** Academic + Technical + Language + Cultural Immersion

This program is designed to provide full integration into the Canadian education system while combining academic development, English language acquisition, and career-oriented technical exposure.

---

2. Program Locations, Cities, and School Districts

Students will be distributed across multiple provinces and school districts to ensure balanced placement, high-quality academic environments, and strong host family availability.

Primary Locations and Districts

Ontario

- Durham Catholic District School Board (Greater Toronto Area)
- Ottawa Catholic School District (City of Ottawa)

Quebec (30 Students)

- Riverside School Board (Montreal region)

British Columbia

- Victoria School District (City of Victoria, Vancouver Island)

Newfoundland & Labrador

- Newfoundland International Student Program (NISEP) – placements across the province

Technical Program Location (Ontario)

- St. Clair College (City of Windsor, Southwestern Ontario, near Detroit, USA)

Placements are distributed to ensure:

- Strong academic integration
- Limited number of students per school (approx. up to 5 students per school)
- Safe and supportive communities

---

3. Academic High School Program

Students will be enrolled in **Canadian high schools** and fully integrated into the local curriculum.

Academic Structure

- Placement in Grades **11–12**, based on age
- Enrollment in **4 academic subjects**
- Classes held **5 days per week**
- ESL (English as a Second Language) support included
- Participation in school extracurricular activities encouraged

Academic Deliverables

- Academic progress report
- Mid-program monitoring report
- Completion certificate
- Graduation/closing ceremony

4. Technical & Career Exploration Program (St. Clair College)

Students may participate in a **technical education program** delivered at **St. Clair College**.

Program Structure

English Language Training

- 4 hours per day (Monday–Friday)
- Total: approximately **280 hours**
- Focus:
  - Communication skills
  - Grammar and vocabulary
  - Real-life English usage
  - Canadian culture

Technical Training

- 4 hours per day (Monday–Friday)
- Total: approximately **258 hours**

Technical Areas of Study

- Manufacturing
- Architecture
- Early Childhood Education
- Marketing
- Computer Programming
- Electrical Engineering
- Welding
- Culinary Arts
- Travel and Tourism

Industry Exposure

- Field trips to companies and organizations
- Exposure to Canadian and international business practices

---

5. Accommodation & Meals

Students will be placed with carefully selected **Canadian host families**.

- Full board accommodation (3 meals per day)
- Private bedroom (in most cases)
- Maximum of 2 students per household
- English-speaking environments to maximize immersion

---

6. Transportation

- Airport transfers (arrival and departure) included
- Transfers between airport and host communities
- Monthly public transportation passes
- School bus access where applicable

---

7. Cultural Activities & Excursions

Students will participate in structured cultural activities.

- Minimum of **4 cultural excursions included**

Examples of Activities

- Niagara Falls
- Toronto city visits
- Museums and cultural experiences
- Seasonal activities (farms, sports events, etc.)

Additional activities available for technical program participants at St. Clair College include sports, outdoor activities, and social events.

---

8. Student Support & Safety

- Local coordinators in each region
- Continuous monitoring and reporting
- Mid-program student evaluations
- 24/7 emergency support
- Custodianship arrangements as required by Canadian regulations

---

9. Insurance

- Comprehensive medical and travel insurance
- Mental health support services
- Emergency and telemedicine access

---

10. Program Cost

Academic Program (Unified Pricing)

- **Cost per Student (14 weeks): CAD $17,650**
- **Cost per Student (13 weeks): CAD $16,950**

  (CAD $700 reduction)

Technical Program (St. Clair College)

- **Cost per Student (14 weeks): CAD $18,650**
- **Cost per Student (13 weeks): CAD $17,950**

  (CAD $700 reduction)

Included in the Program Fee

- Academic placement and tuition
- ESL instruction
- Host family accommodation (full board)
- Airport transfers and local transportation
- Monthly public transit pass
- Cultural activities and excursions
- School materials (on loan)
- Graduation ceremony and certificate
- Medical and travel insurance
- Custodianship and student support services

---

11. Additional Notes

- Average placement of **up to 5 students per school** to ensure integration
- Students are encouraged to participate in extracurricular activities
- School calendars include holidays and professional development days

---

12. Conclusion

This program offers a **high-quality international education experience**, combining:

- Canadian academic excellence
- English language development
- Technical and career-oriented training
- Cultural immersion

ISE / SMG is fully equipped to manage large-scale international programs and successfully deliver this initiative for the **Government of Brasília**, ensuring quality, safety, and measurable educational outcomes.
